MAKING THE INVISIBLE VISIBLE:
IDENTIFYING THE VALUE IN HIGH-PERFORMANCE HOMES

THE GOOD NEWS: HIGH PERFORMANCE HOMES ARE HERE.
THE BAD NEWS: REAL ESTATE APPRAISALS DON’T REFLECT THEIR TREMENDOUS ADDED VALUE… YET!

Much of what makes a building high performance is invisible to the untrained eye. This presentation will help illuminate what’s hidden and provide both homeowners and professionals valuable information for negotiating the high performance home appraisal process. If you are a realtor, banker, appraiser, builder, or a homeowner looking to sell, appraise, or build a high performance home, please join us!
